

4073.D3000

Configuration Table

Part Number	Closed Length "A"	Extension Length	Load Per Pair (kg)
4073.D3000.0540	540	540	500
4073.D3000.1040	1040	1040	500
4073.D3000.1540	1540	1540	500

Options: Handles are available in Black and Yellow

SECTION B-B

We recommend use the major axis, do not dismantle the slide! The maximum safe load is given for a fully extended pair of slides, mounted on the major axis, with a load spread uniformly along the inner beam.

Material:

Handle - Polyamide, 35% glass fibre reinforced.

Bars – Stainless steel grade 304

Plastic parts – Polyamide, 35% glass fibre reinforced

Plunger, casing & end stops – Polyamide, 35% glass fibre reinforced

Springs – 304 Stainless steel
